Project Details: -

❖ HSBC HealthPass

HSBC HealthPass is a **health services membership program** by **HSBC Life (International) Limited**, not an insurance product and not offered by The Hongkong and Shanghai Banking Corporation. As part of the **Well+ Programme**, it provides members with **discounted access to health, medical, and wellness services**, rewarding those who actively pursue better health and well-being. **Link:-** <https://www.hsbc.com.hk/healthpass/>

❖ SpendTrack

Spendfit is a native iOS application developed by **Fiserv**, featuring two modules: **Card Holder** and **Programming Admin**. In the **Card Holder** module, users manage their **credit card dashboard, expenses, transactions, and account details**. In the **Programming Admin (PA)** module, admins can view account holders and manage **credit card accounts, transactions, payments, and expense details**.

App Store Link:- <https://apps.apple.com/us/app/spendtrack/id1672652764>

❖ C28Collection

C28Collection is an iOS framework developed by **HSBC Bank** that displays a list of loan accounts, including **Personal Loan, Credit Card, Mortgage, and Overdraft**. Users can select an account and **request changes to their loan repayment date**. Upon approval, the **repayment date is automatically updated** within the system.

❖ Samsung Knox & Brity Mail

Samsung Knox is an enterprise iOS application developed by **Samsung SDS**. It offers core email functionalities including **Inbox, Sent, Drafts**, and the ability to **mark emails as important**. Users can also **schedule meetings** by selecting available meeting rooms and **send approval requests** to supervisors for necessary authorization.

App Store Link:- <https://apps.apple.com/us/app/samsung-knox-manage/id1258132253>

❖ Paradigm Services

Paradigm Services is a native iOS application designed for retail environments. It supports payments via **cash, card, gift card, and checkbook**, and integrates with **BLE-enabled devices** such as POS systems, mini-POS, printers, and scanner guns for seamless transactions. The app also includes **admin features** for managing **inventory, employees, and customers** within the retail store. **Link:-** <https://apps.apple.com/in/app/banktech-sphere/id1367152139>
